K HUME

Product Sheet

70% HA Activated Potassium Humate

Coated Soil Conditioner - Net Weight 50 lbs.

ACTIVATED FOR ENHANCED SOLUBILITY POTASSIUM HUMATE containing 70% Humic Acid by weight (a non-plant food product) derived from Mesa Verde Humates. Humic Acids are natural agents containing both humic and fulvic fractions.

A concentrated source of humic acids. Adds organic material containing humic acids to your soil to stimulate soil life. Improved solubility (76% soluble) to speed activity in the soil and enhance uptake. Naturally-occurring, unaltered oxidized lignite, coated and screened to various particle sizes (1-2mm, 1-6 mm, 2-6mm). K Hume also contains many supplemental natural minerals in trace amounts.

APPLICATION RATES:

SEED BED AND SEEDLING PLANTED BEDS: Apply 3-4 lbs. per 1,000 Sq. Ft. of area. Mix K Hume in top 6" of bed or mix in media prior to filling bed.

GOLF GREENS AND TEE-BOXES: Apply 5-10 lbs per 1,000 Sq. Ft. of surface area.

GOLF FAIRWAYS - LAWNS - GRASS FIELDS: Apply 50 - 100 Lbs/Acre

FIELD APPLICATION with FERTILIZER COMPOUNDS: Apply 75 - 150 Lbs/Acre

GREENHOUSE & NURSERY: On inside and outside of beds: Apply 1 Lbs per 200 Sq. Ft. of area and mix in top 2-3". Incorporated in Media Mix: Mix 50 Lbs. with 28 Cu. Ft. of media mix. This ratio is for 1/2" Oz. per 4" pot.

AVAILABLE BAGGING:

50 lb. Paper Kraft Bagging

Our fifty-pound bags are "blow-in" type bags with 2 paper layers and an inner layer of impermeable plastic. Air holes in the bags allow the product to be blown in through an opening in the top of the bag. This opening is self-closing when the bag is filled to capacity. Fifty-pound bags are stacked on 40x48" pallets for shipping, with 45 bags to the pallet (2,250 pounds of product per pallet. The pallets themselves weigh 50 pounds). Shrink wrapping of palletized bags is available upon request. The bags are a plain brown paper with no printing. Pre-printed customer bags can be filled upon request.

1 Ton Mini Tote Bags

The most popular method for shipping our products is in mini-bulk bags, each of which holds approximately 1 ton of product. These bags are made of a synthetic material and are resistant to moisture. The bags are "duffel top", meaning they can be tied closed at the top. A spout on the bottom of the mini-bulk bags is tied closed for filling and can be opened to allow dumping of the product into a hopper or mixer. Straps at the four top corners of the bags allow easy handling with a forklift. We can ship mini-bulk bags on pallets (36x26") upon request.

Bulk

Granular humate products can be shipped in larger bulk storage containers such as grain trucks (hoppers), belt trailers, etc. Please inquire if you are interested in bulk shipments.
